| NAME | EXCLUDED BECAUSE... |
| --- | --- |
| Madagascar | workflow system |
| Vis Trail | workflow system |
| myexperiment | workflow system |
| The LONI Pipeline Processing Environment | workflow system |
| taverna | workflow system |
| Validation ScienceExchange | Done by humans |
| Netlogo | multi-agent programmable modeling environment |
| Research Objects | fundamental tool/concept |
| smart figures | only visualizations |
| dat-data.com | Sharing data |
| scienceopen | discovery platform |
| SCons | fundamental tool/concept |
| Redoc.ly | For creating APIs |
| Dataverse | Data repository |
| distill.pub | Journal |
| osf.io | no execution infrastructure |
| smartContainers | coming soon |
| re3data.org | registry of research data repositories |
| Kepler.gl | workflow system |
| advanced visual systems | only visualizations |
| RunMyCode | only sharing code/data |
| European Science Cloud | Data cloud |
| GenePattern 2.0 | workflow system |
| knitr | fundamental tool/concept |
| Sweave | workflow system |
| Taverna | workflow system |
| Zenodo/Invenio | no execution infrastructure |
| IPython/Jutyter | fundamental tool/concept |
| Conquaire | not active |
| shiny Rstudio | only visualizations |
| data citation index | nothing to do with executability |
| arxiv | no execution infrastructure |
| rOpenSci | rather an initiative |
| Open journal systems | no execution infrastructure |
